

A photograph of a flooded forest. Several large, mature trees with thick trunks stand in shallow, rippling water. The water reflects the sky and the surrounding greenery. The trees have dense, green foliage. The sky is visible through the canopy, showing a mix of blue and white clouds. The overall scene conveys a sense of nature's resilience and the impact of flooding.

Warned by Nature, Recover with Nature: Increasing Resilience through Nature-Based Recovery in Aceh, North Sumatera, and West Sumatera

Sumatera Floods Series #3
